

Searching for SEO-owned die cuts in Enterprise

If you know the shape/object you want, the best way to search for it in the Enterprise (public view) catalog is to search All Libraries, All Fields and enter the description and the words die cut in the space provided; then click Search. Here's an example:

If there is more than one matching result, a results list will appear (see example below). If there is only one matching title record, the screen will default to the detailed display. All the records for SEO-owned die cuts have the words die cut as the first part of the title:

-  **Die cut duck.**
